Full-stack Developer with over three years of professional experience in coding, collaborating, and leading projects to production. Excited for the opportunity to make a positive impact within a collaborative environment.

Notable Works

Prudential Financial

- Led the development of a data marketplace application catering to over 40,000 internal users across various organizations.
- Built custom React components, including drill-down views and CRON input fields, to address internal security concerns with third-party libraries.
- Collaborated with the back-end team to establish standardized API development practices and ensure consistent response structures.
- Technologies used: React, TypeScript, MaterialUI, SASS.

Garbo

- Developed entire front-end code base, including authentication and payment flow, for web application used by over one million users.
- Collaborated with team in brainstorming sessions on design, user needs, and refactoring work for the entire flow of the web application.
- Technologies used: React, SASS, AWS Cognito.

Work Experience

Software Engineer

Curate Insights

May 2022 – June 2023

- Spearheaded development as the front-end team lead of an internal web application for a Fortune 500 company.
- Built out scripts to parse and standardize thousands of lines of data from multiple APIs into filterable tables.
- Ensured code quality and consistency across client projects by establishing an internal styling guide and code base.
- Mentored and supervised junior software engineers, providing constructive feedback, facilitating pair-programming sessions, and offering guidance in troubleshooting and problem-solving.

Front-end Engineer

Garbo

July 2021 – May 2022

- Sole front-end engineer in a fast-growing startup serving over one million users.
- Demonstrated adaptability by quickly adopting and implementing new design concepts and technologies, such as B.E.M., AWS Amplify, and OAuth.
- Collaborated in two-week sprints, effectively aligning with team goals and implementing solutions.
- Coordinated with partner organizations and ensured timely project delivery, culminating in a successful launch via the Tinder app.

Compliance Examiner

National Futures Association

2015 – 2019

- Conducted interviews with key senior personnel to gain a comprehensive understanding of the firm's compliance structure.
- Successfully completed seven large-scale investigations of member firms, consistently meeting prescribed deadlines.
- Effectively managed a team of new hires during investigations and performed second-level review of their work.

Technical Skills

- **Languages:** HTML, CSS, JavaScript, Ruby, Solidity, SQL
- **Technologies:** React, Redux, Mongoose, MongoDB, Express, Node.js, Ruby on Rails, SQLite, PostgreSQL, Webpack, Jest
- **Other:** AWS, Bloomberg Terminal, Microsoft Power BI, GitHub, BitBucket, Jira

Education

- **Certification,** App Academy Summer 2020
- **Bachelor of Business Administration, Finance,** Zicklin School of Business, Baruch College 2008 – 2013
